

Volunteers Needed

Have You Experienced Severe Nausea and Vomiting During Pregnancy?

We Want to Hear From You!

Researchers at Western University are conducting a study titled “**Investigating Patient Experiences with Hyperemesis Gravidarum**”. We aim to better understand the experiences of pregnant individuals with severe nausea during pregnancy or postpartum.

You May Be Eligible If You:

- Are currently pregnant or have given birth in the last 12 months
- Experienced severe nausea and vomiting during your pregnancy
- Are living in Ontario
- Can communicate in English
- Are capable of providing informed consent

What’s Involved and Why Participate?

- Complete an anonymous, online survey (~10mins) via link below
- Your answers will help researchers find problems in current care and work toward better treatment for people who have extreme nausea and mental health struggles during or after pregnancy.

To Participate, Scan This QR Code Now!
